

# The Mission Pinball Framework

Software for powering real pinball machines. 100% free. 100% open source.

Want to build a custom pinball machine?

- Design a game
- Produce playfield and cabinet
- Buy or build a control system
- Program your game

Why use MPF as a software framework?

- Extensive documentation
- Do not reinvent the wheel
- Hardware independent (no vendor lockin)
- Proven software framework
- Large community of machine builders

What does MPF offer for my pinball machine?

- Support for LCD, DMD or segment displays
- Built-in support for almost all pinball mechanisms
- Professional sound system
- Build a machine with config files or in python code
