The Mission Pinball Framework

Software for powering real pinball machines. 100% free. 100% open source.

Want to build a custom pinball machine?

- Design a game
- Program your game
- Create playfield and cabinet
- Buy or build a control system

Why use MPF as a software framework?

- Extensive documentation
- Do not reinvent the wheel
- Hardware independent (no vendor lock-in)
- Proven software framework
- Large community of machine builders

What does MPF offer for my pinball machine?

- Support for LCD, DMD, and segment displays
- Built-in support for almost all pinball mechanisms
- Professional sound system
- Get your game running in minutes with easy-to-learn config files
- Extend your game with custom python code for unlimited flexibility
